Also excellent are the indispensable hybrid musk roses such as R. 'Felicia.' Along the top of the sunken wall of the Rose Garden is a lavender hedge which, with the roses, scents the garden throughout the summer.

The **Rose Garden at Greenwich Park** is located on the eastern side of the park and forms the backdrop to the Ranger's House, an elegant Georgian villa which was originally the residence of the Park Ranger. It now belongs to English Heritage and houses The Wernher Collection, a remarkable collection of works of art amassed by diamond magnate Sir Julius Wernher (1850-1912).

2. **Accommodation with a great garden**

Eltham Palace

Eltham is home to more than 19 acres of stunning 'pleasure' gardens including the herbaceous border designed by award-winning garden designer Isabelle Van Groeningen in 2000 as part of the Contemporary Heritage Garden scheme. The gardens include a mesmerising Rock Garden complete with a series of pools and cascades running down to the moat (London's oldest working bridge) and a peaceful, sunken rose garden.

The lady of the house, Virginia Courtauld, had a passion for roses, and even had a red rose named after her. Her husband was also a keen gardener and won several Royal Horticultural prizes for the orchids he grew in the glasshouses at Eltham.

This stunning part showpiece of Art Deco design and 1930s cutting-edge technology, and part medieval royal palace was re-opened in Spring 2015 following £1.7million of refurbishment and reinterpretation works and now includes fantastic new rooms such as the wartime basement bunker and hidden map room. Guests can enjoy a garden tour on the multi media guide, and garden 'bats' of interpretation dotted around the garden that help explain the history of the garden to visitors.

For every season there is a spectacle to enjoy, from snowdrops to poppies and peonies and an array of wildflowers.

Visitors can enjoy views, historical tours, activity sessions and tea and cake at the castle's tea rooms.

Enjoy the surroundings of the recently restored Severndroog Castle, the 18th Century gothic tower was built by Lady James in 1784 as a memorial to her late husband Sir William James whose most famous exploit was destroying a fleet and stronghold of 'pirates' on the island fortress of Severn Droog in India.

The Green Chain Walk passes the Castle along the way visitors can discover the delightful open spaces of Shooters Hill, Maryon Park, Woolwich Common and Eltham Palace along with many more.
